## **Purpose of Contributions:**

AACC is working to save our property values, our water, our peaceful setting, our environment, our farmers, our local businesses, and our safety – to do so requires money.

Our environmental organization is non-profit; the members of our board and our affiliates do not receive any compensation. All funds raised go to the cause. We will be requesting memberships annually.

We have paid legal counsel fighting for our rights, both in local zoning remonstrance and at the state level with the DNR. We have paid scientific experts in the fields of geology and hydrology. We will need funds to keep fighting.

This is what your donation supports; you are making a very real difference.
